Order Execution Policy

1. Introduction

The purpose of this document is to provide information to our clients regarding our approach to executing orders on your behalf in relation to financial instruments in accordance with the Markets in Financial Instruments Directive (MiFID). In order to execute a deal with us you will have been provided with this document and by placing the deal you will be deemed to have read and consent to the Policy.

This Order Execution Policy applies to our clients whether we execute an order on your behalf (either as agent or principal), or receive and transmit an order for you, or work an order for you. We will take reasonable steps to achieve best execution of those orders. Our commitment to provide our client's with best execution does not mean that we have any fiduciary responsibilities over and above the specific regulatory obligations placed upon us or as may be otherwise contracted to.

2. What is Best Execution

Best execution is the requirement to take all reasonable steps to obtain the best possible result when either executing transactions on your behalf or using other affiliates or brokers to execute transactions on your behalf, taking into account the following execution factors:

- Price – this is the price a financial instrument is executed at;
- Costs – this includes implicit costs such as the possible market impact, explicit external costs e.g. exchange or clearing fees and explicit internal costs which represents the firm's own remuneration through commission or spread;
- Speed – time it takes to execute a client transaction; Likelihood of execution and settlement – the likelihood that we will be able to complete a client transaction;
- Size – this is the size of the transaction executed for a client accounting for how this affects the price of execution;
- Client type – Best execution requirements can differ depending upon client type; and
- Nature of the transaction or any other consideration relevant to the execution of the transaction – this is how the particular characteristics of a client transaction can affect how best execution is received e.g. Settlement.
- Any other relevant criteria

Retail Client – We have determined that the order of importance of the execution factors is the same across all asset classes and markets; that for all retail clients the best possible result will be determined in terms of the total consideration, representing the price of the financial instrument and the costs related to execution. The process described above is largely undertaken electronically with our system requesting the best quote in the size of order required from numerous Retail Service Providers. Sometimes this system might not be able to offer a price – for example, in the case of a large trade or an illiquid instrument. If this happens we will exercise our discretion in assessing the criteria that we need to take into account to provide clients with the best result. The relative importance of these criteria will be judged in line with our commercial experience and with reference to market conditions including the need for timely execution, availability of price improvement, the liquidity of the market and size of your order (which may make it difficult to execute an order) and the potential impact on total consideration. In certain circumstances therefore Thomas Grant & Company Limited may determine that the speed, and likelihood of execution and settlement for example may take precedence over immediate price and cost factors if they are instrumental in delivering the best possible result.

Professional Client – If we have expressly categorised you as a Professional client in accordance with the meaning given to this term in the Financial Conduct Authority ('FCA') Rules, we will consider relevant FCA and European Securities and Markets Authority ('ESMA') guidance to determine whether we are acting on your behalf and whether you are legitimately relying on us to deliver best execution in relation to your order. In certain circumstances our determination of the relative importance of the execution factors may differ from retail clients including for example where the likelihood of execution may take precedence over price.

3. Specific instructions

It is important to bear in mind that where you give us a specific instruction as to the execution of an order, we will execute the order in accordance with those specific instructions. Where your instructions relate to only part of the order, we will continue to apply our order execution policy to those aspects of the order not covered by your specific instructions. **You should be aware that providing specific instructions in relation to the execution of an order, may prevent us from taking the steps set out in this policy to obtain the best result in respect of those elements covered by those instructions.**

4. Best execution relating to Spread Bets & CFDs

In relation to Contracts that you enter into with us, we act as principal and not as agent on your behalf and we therefore act as the sole execution venue for the execution of your Contracts. This means that we will act as market maker and you will be dealing with us and not within the underlying market. The way we obtain best execution is by ensuring that in the calculation of our bid/offer prices used to execute your Contracts is based on the same methodology as described in paragraph 2 above.

5. Execution venues & entities

In establishing this Order Execution Policy we have identified a variety of execution venues to obtain the best possible result on a consistent basis when executing orders on behalf of our clients. Whilst the venues change and updated details are available on request, the list is not exhaustive and we reserve the right to use other execution venues where appropriate and in accordance with this policy. Those on which we place significant reliance are:

- Regulated Markets ("RM") – A market over which a government body exerts a level of control which is authorised and functions regularly in accordance with the provisions of Title III of MiFID.
- Multilateral Trading Facilities ("MTFs") – A multilateral system, operated by an investment firm or a market operator, which brings together multiple third-party buying and selling interests in financial instruments – in the system and in accordance with non-discretionary rules – in a way that results in a contract in accordance with the provisions of Title II of MiFID.
- Systematic Internalisers ("SIs") – An investment firm which, on an organised, frequent and systematic basis, deals on its own account by executing client orders outside a regulated market or an MTF.
- Retail service providers or other liquidity providers.
- Other FCA authorised firms and EU or non-EU institutions (for overseas instruments).
- Non EU entities performing similar functions
- All transactions in Unit Trusts and OEICs and some International Securities are dealt off market.

We may deem it appropriate or advantageous to execute your order outside a Regulated Market or MTF even where the financial instrument concerned is traded on a Regulated Market or MTF. These may include:

- transacting your order on an "over the counter" (OTC) basis with another market participant;
- crossing your order with that of another opposing client ("Agency Cross");
- executing your order with a "Systematic Internaliser" (a firm that trades on its own book) or other liquidity provider;
- executing your order with Thomas Grant & Company Limited as principal.

If we trade for you in International Securities, the execution of your order may be restricted only to those market makers that are able to provide the settlement arrangements and foreign currency conversion that we require to complete the order. In such circumstances Best Execution is achieved by reference to the prices provided by these market makers.

6. Aggregation of Orders

We may combine your order with those of other clients. We must reasonably believe that it will obtain a more favourable price than if your order had been executed separately. However, on occasions, aggregation may result in you obtaining a less favourable price, by trading with Thomas Grant & Company Limited you acknowledge and accept this.

7. Publishing Limit Orders

If you give us a Limit Order (an investment instruction at a specified price limit or better and/or size) it may not be possible to execute that order immediately. In such cases we would be required to make that order public (i.e. declare it to the market) unless you agree that we need not do so. We believe it would be in your best interests if we exercise our discretion as to whether or not we make the order public. We will not make your order public unless we consider it is in your best interests to do so.

8. Monitoring

Thomas Grant & Company Limited regularly monitors and reviews the effectiveness of this Order Execution Policy and the quality of the execution of client orders provided.

Clients may, on request, ask us to demonstrate how best execution has been obtained.

We shall not be liable for any losses suffered through a depreciation in the value of your investments, no matter what the cause, or for any error of judgment or other act or default unless involving negligence, gross misconduct, a breach of the Financial Services and Markets Act 2000 or any regulation made under it, by any Thomas Grant & Company Limited employee.

Clients and securities based overseas

You should be aware that overseas stocks may be subject to different settlement, legal, taxation, and regulatory requirements from those applying in the UK. If you purchase shares registered in the USA, you should be aware that should the Company make a distribution to you i.e. Dividends, you may be liable to a higher level of withholding tax. Should you wish to avoid this, UK citizens will need to complete a W-8BEN form and pay a fee of £100 + VAT per person, this fee is charged by Crest who will hold the shares on our behalf. The W-8BEN provides cover for a 3 year period.

The Foreign Account Tax Compliance Act (FATCA) became effective on July 1, 2014. FATCA is a regulatory reporting requirement for foreign financial institutions on their U.S. client account holders. Thomas Grant and Company Limited comply with the FATCA requirements and are registered on the U.S. IRS website with the FATCA Status "Registered Deemed-Compliant Financial Institution" and our Global Intermediary Identification Number (GIIN) is D6XKSK.99999.SL.826. All U.S. citizens or other U.S. person need to provide us with a W9 form for identification purposes.

3. Acting as Agent/Principal

In carrying out your instructions we may, at our discretion, act as agent or principal. The capacity in which we have acted will be stated on the contract note.

In the event that we, as principal, sell stock to you on extended settlement, we may show an additional charge rather than increase the price at which you purchase shares, which is the usual market practice.

4. Conflicts of Interest

While we do everything we can to avoid a conflict, where this is not possible we make sure we manage any conflicts of interest to avoid any material risk, disadvantage or loss to clients.

When we enter into a transaction for you, we could be:

- matching your transaction with that of another client by acting on his behalf as well as yours;
- buying or selling units in a collective investment scheme where we are the trustee, operator (or an adviser of the trustee or operator) of the scheme;
- buying investments where we are involved in a new issue, rights issue, take-over or similar transaction concerning the investment

How do we manage conflict of interests that might affect clients?

- the nature of our business is non-advisory
- we design reward structures for our employees that are not target-based
- we operate personal account dealing policies for our employees and monitor their accounts.

Please bear in mind that, before publishing research, we, or an associated company, may have acted upon it or made use of information on which it is based.

5. Non-Readily Realisable Investments

We may enter into transactions on your behalf in non-readily realisable investments. These are investments in which the market is limited or could become so. They can be difficult to deal in and it can be difficult to assess what would be a proper market price for them.

6. Off-Exchange Transactions

We may deem it appropriate or advantageous to execute your order outside a Regulated Market or MTF only in accordance with the provisions of our Order Execution Policy details of which are provided separately.

7. Execution of Orders

Our dealings for you will be in accordance with our Order Execution Policy, details of which will be provided separately.

For funds and ETF's you should refer to the relevant prospectus before purchasing. For listed securities you should refer to the relevant announcements.

8. Charges

Our charges will be in accordance with the published rate in effect at the time the charges are incurred. All charges, unless otherwise stated, are exclusive of VAT. Any alteration to these charges will be notified to you at or before the time of the change.

We may share dealing charges with a connected person or other third parties, or receive remuneration from them in respect of transactions carried out on your behalf. Details of any such remuneration will be made available to you on request.

9. Stabilisation

We may deal for you in investments that have been the subject of stabilisation, which is a price supporting process that may take place in the context of new issues. The effect of stabilisation can be to make the market price of the new issue temporarily higher than it would otherwise be. The market price of investments of the same class already in issue, and of other investments whose price affects the price of the new issue may also be affected.

This process is undertaken in order to ensure that the issue of investments is introduced to the market in an orderly fashion, and that the issue price and/or the price of associated investments is not artificially depressed because of the increase in supply caused by the new issue. Stabilisation may only take place for a limited period, and there are limits on the price at which the shares, warrants and depository receipts may be stabilised (although there are no limits in respect of loan stock and bonds).

10. Telephone Calls

We may telephone you to discuss your investments without having been expressly invited by you to make such a call. The ability to telephone you in this way is likely to increase the effectiveness of our services to you, but you should be aware that you will forego certain statutory rights that you might otherwise have entitling you to undo an investment transaction which you enter into as a result of an uninvited call. We will not telephone before 9.00 am or after 9.00 pm unless expressly requested to do so.

In order to assist Thomas Grant & Company Limited in monitoring compliance with the relevant rules of conduct and to avoid misunderstandings, Thomas Grant & Company Limited may make and keep a sound recording of telephone conversations between Thomas Grant & Company Limited and you. These recordings shall be and shall remain Thomas Grant & Company Limited's sole property and will be accepted by you as conclusive evidence of the conversations so recorded. You agree that Thomas Grant & Company Limited may deliver copies or transcripts of such recordings to any court or regulatory authority.

11. Safe Custody/Nominee

Investments within the Account shall at all times following settlement be beneficially owned by you.

Save as detailed in paragraph 21 we will hold investments on your behalf only if we have entered into a nominee or ISA agreement with you.

If we enter into a nominee or ISA agreement with you, your investment holdings will be registered in the name of Thomas Grant & Company Nominees Limited, a wholly owned subsidiary of Thomas Grant & Company Limited, and pooled with those of other clients. Alternatively if we enter into a Crest Sponsored Member agreement with you, your Crest holdings will be registered in your own name and address and non Crest holdings will be registered in the name of Thomas Grant & Company Nominees Limited, a wholly owned subsidiary of Thomas Grant & Company Limited, and pooled with those of other investors. Any or all investments may be held with an eligible custodian.

Thomas Grant & Company Limited shall be liable in the event of loss of a safe custody investment by the fraud, willful default or negligence of Thomas Grant & Company Limited or its employees, representatives or officers. In the event of loss caused by the fraud, willful default or negligence of an eligible custodian appointed by us, we shall remain liable as if such fraud, willful default or negligence had been committed by Thomas Grant & Company Limited.

A fee will be charged at our published rate if you transfer your nominee, Crest Sponsored Member or ISA holdings into your own name or into the name of another nominee company.

12. Rights and Obligations

It is your responsibility to identify any upcoming Corporate Actions before purchasing an investment as we will not provide you with any notifications at the time of purchase. Dividends, interest payments and other entitlements (e.g. scrip dividends) will be collected on your behalf and added to your funds or paid to you. Foreign currency received for your account in relation to your overseas transactions will be exchanged at prevailing market rates at the end of each calendar month unless otherwise instructed by you.

We will monitor all documents and correspondence received from the various companies on your behalf and will refer to you only when decisions are required. We will use reasonable endeavours to carry out any instructions received but if such Instructions are not received in time for us to take timely action we shall not be under any obligation to act upon such instructions and we shall not be under any obligation to exercise conversion and/or subscription rights on your behalf. We will normally:

- not take up any rights issues unless instructed by you to do so
- not exercise any conversion or subscription rights unless instructed by you to do so
- handle all matters relating to capital re-organisations and takeovers
- not use the investments for Thomas Grant & Company Limited account, or the account of another client without prior written consent

Valuations of your holdings will be provided twice a year, unless otherwise agreed in writing. You may request additional valuations and statements at any time for which a charge will be made in accordance with the published rate in effect at the time. Transactions are reported on a trade date basis and the assets will be valued at the closing mid-market price if applicable on the statement date.

If after we have purchased an investment for you, but before you are the registered holder, dividends are payable and other rights conferred, we will claim them on your behalf. You agree to pay us on demand the amount of any dividend or any rights conferred, which you receive after your entitlement has ceased, for example from the sale of shares or units, and additionally return to us any certificates or other documents in evidence of such rights.

13. Settlement

You shall promptly take all action necessary, including the supply of information and return of necessary documents, to enable due settlement of any transaction entered into by us with you or on your behalf.

Funds for any purchase of any investment, in the correct currency for the investment concerned, must be available to us at such time as we may specify. If no time is specified cleared funds must reach us no later than the appropriate settlement day for the particular transaction concerned together with any commissions and charges due in respect of the transaction.

We will credit you on the day the bargain is settled with the full proceeds of the sale of any investment less charges provided that you have delivered to us valid stock transfer forms or documents of title and any documents necessary to transfer title in good order in sufficient time to allow us to settle the transaction.

Payment of fees and charges shall become due on the day they are incurred on your behalf.

It is our normal practice to aggregate all sums due to and from you, including commissions, fees and charges, and pay any net credit to you (if there is a cash balance in your favour) or call any net debit from you (if there is a cash balance in our favour). We may depart from our normal practices at our discretion.

14. Methods of Payment

All funds received should be directly attributable to the account holder. Payment to be made by bank transfer or cheque by the settlement date, we cannot accept cash or debit card payments.

15. Right to Retain Clients Funds, Combine and Set-Off Balances

We reserve the right to retain, or make deductions from, amounts which we owe you or are holding for you (including any margin amounts), in settlement of any obligations to us. We also reserve the right to combine all or any accounts opened in your name and to consolidate the balances in such accounts and to set off such balances between us.

16. Your Money

We will deal with any money you have with us in accordance with the rules of the Financial Conduct Authority Client Asset Regulations, which require us to hold your money in a bank account at an approved bank.

Money required for settlement may be held with the money of other clients in the same settlement bank accounts. No interest will be earned or paid on such money.

If you have a nominee, Crest Sponsored Member or ISA account your free money (i.e. money not required for settlement) and accrued dividends will be held on deposit in a pooled account with an approved bank under customer trust status (i.e. separate from Firms money). Interest will not be paid on CFD, Spreadbet or Online Trading Accounts. Interest on other accounts will be paid monthly on cleared credit balances at the tiered rate published by the Firm's bankers for the amount that is recorded as being held by you. For reference these rates can be found on the Lloyds Bank website under 'classic account' www.lloydsbank.com/current-accounts/all-accounts/classic-account. Thomas Grant & Company Limited may earn interest on money in this account.

When the services in which you have instructed us come to an end, we will endeavour to return to you, all and any client money held by us on your behalf. If we are unable to return this money to you for reasons beyond our control we will contact you at your last known address at least once every 6 months to try and return this money to you. If there has been no movement on client money balances for a period of at least 6 years (notwithstanding any interest or charges) we will write to you at your last known address and inform you that we may cease treating this money as client money and may pay balances below £25.00 away to a registered charity. If we do not receive a response to this letter within 28 days we will cease our attempts to contact you. However, we will keep a record of all balances released from client bank accounts in this way and will undertake to make good any valid claim against any released balances.

If after the action specified above has been taken there is a positive balance in your favour we shall (after withholding such amount as we in our absolute discretion consider appropriate in respect of future liabilities) pay such balance to you as soon as reasonably practical and supply you with a statement showing how such a balance was calculated.
